AusMedtech

AusMedtech, part of AusBiotech, is the national industry group representing the medical devices and diagnostics industry sector in Australia. AusMedtech is dedicated to the development, growth and prosperity of the Australian medical technology industry. It has a national advisory group with three sub-committees, two state-based advisory groups and the Stoma Industry Group.

Together with AusMedtech, AusBiotech facilitates trade in medical devices by providing much needed information to Australian companies. With the support of the Australian Trade and Investment Commission and funding from the Asian Business Engagement (ABE) Plan, the 'Australian Medical Devices & Diagnostics to China' project has been launched, which includes the Guide for Australian medical technology companies seeking to engage in China, the 'AusBiotech directory of Australian medtech companies' and the 'Directory of Known of Known China Advisors'.

Australia's premier medical technology conference AusMedtech will co-partner with the International Conference on Mechanics in Medicine and Biology (ICMMB) in 2017. The joint conference will be held from 24-25 May in Melbourne, bringing together key stakeholders and researchers of the Australian and international medical devices and diagnostics sector.

AusAg & Foodtech

AusAg & Foodtech is a special advisory group representing agricultural biotechnology and food technology, and biotechnology's contribution to the food development process in Australia, from the farm to the plate.

AusBiotech is a founding member of the Agricultural Biotechnology Council of Australia (ABCA), a national representative organisation for agricultural biotechnology. ABCA is a joint initiative of AusBiotech, CropLife Australia, Grains Research and Development Corporation and the National Farmers' Federation.

abca.com.au

AusAg & Foodtech 2017 is Australia's business of science conference in food and agritech, putting the spotlight on innovation and technology in the agriculture and food industries.
